ANGRY WIFE HAS LOCAL MAN TAKEN TO JAIL

Swears to Warrant Charging Non-Support of Minor Children—Was Denied Separation Monday in Oakland.

"She Has Harassed Him for Months," Declares Attorney Opsahl, Representing the Husband.

T. A. Lewis, 408 B street, was arrested early last night by Sergeant Jennings on a warrant charging him with failure to provide for his wife and minor children. Lewis was taken to the Oakland city jail by Inspector Drow of the Oakland police.

Mrs. Lewis' suit for divorce on a charge of cruelty was denied Monday by the Oakland judge.

Attorney Opsahl, representing Lewis, said last night that his client had been constantly harassed for the last months by attachments on his salary to pay bills contracted by Mrs. Lewis.

He said that Lewis had been out of work for some time and that the non-support accusation was the trumped up charge of an angry woman.

When Judge Harris denied Mrs. Lewis' suit for divorce he remarked that he believed she had "seen too much of the gay life." She asked for the custody of the two children, both girls, aged 9 and 7.

Lewis was formerly employed as a clerk by the Standard Oil Company.

"BILLY" JORDAN GETS 60 DAYS

"Billy" Jordan, arrested Sunday by Officer Jennings on a charge of vagrancy, was sentenced to sixty days in the county jail on his appearance before Police Judge Lindsey yesterday afternoon. Jordan claims to be a bartender. Investigation showed it had been several weeks since he had worked. He is 35 years of age.

LAMOREUX QUILTS.

SHELL JOB TO BE PICKETED BY BOILERMAKERS' ORGANIZATION

Starting today the Shell job at Martinez is to be picketed by the Boilermakers' Union.

At the meeting last night the situation was discussed and this action decided upon. While no boiler-makers are as yet employed on the construction of the refinery, it is thought that approximately 200 will be hired later on.

An attempt will be made to work the men nine hours a day.

The picket assigned last night to the Shell job will alternate with the picket now doing duty on the Columbia Steel Company's job at Pittsburg, which was recently struck.

The following officers were installed by the union: President, F. Mallison; vice, Scott Melville; financial secretary, William Jones; recording secretary, G. E. Bennett; treasurer, James McCormick; inspector, J. Shubat; delegates to Labor Council, J. M. Daigh, H. L. Smith, J. H. O'Harris, James McCormick, F. P. Throll and J. Silvia.

A committee was appointed to look for a new hall, as the present headquarters in Musicians' Hall is becoming too small for the growing membership.

STATE OFFICIAL AT MEETING OF UNION

Officers recently elected were installed at last night's meeting of Steamfitters and Helpers' Union No. 436, held in Labor Temple. The meeting was largely attended.

Thomas B. Clark, Pacific Coast organizer, was in attendance at the session. He made a short talk.

The Steamfitters are looking forward with pleasant anticipation to a trip from the international president, John R. Alpine, in the near future.

The following officers were installed at last night's meeting: O. F. Lilly, president; A. Vance, vice president; F. C. Yarbrough, financial secretary; H. A. Grower, recording secretary; J. Bedbury, sentinel.

HEARS OF RELATIVE'S DEATH.

John Telleston, night watchman at Ferry Point, yesterday received word from Seattle to the effect that his brother, a pioneer resident of the Washington metropolis, had died after a long illness. Telleston will leave today for Seattle to be in attendance at the funeral of his brother.

AUTO RUNS INTO WAGON: POLICEMAN INJURED

Horse's Head Sticks Through Windshield of Machine—Officer Out By Flying Glass About the Face and Hand.

Wright Declares That the Accident Was Unavoidable—Twelve Stitches Taken in His Thumb By Dr. Caesar.

When the Ford delivery car, owned by Ed Carlson, the grocer, driven by Dwight Howard, with Howard and Sam Wright as occupants, and the light delivery wagon of the Schrader furniture store, driven by Fred Roelke, crashed together at the corner of Macdonald avenue and Seventh street yesterday before 4 o'clock, an injury to Officer Wright occurred.

The head of the horse, attached to the delivery wagon, went through the windshield, scattering glass in every direction. The severest injury was to the thumb of Wright's right hand. Eleven stitches were taken in the digit by Dr. Caesar.

Outside of the damage done to the windshield, little harm was done to the auto.

Officer Wright said: "No one can be blamed for the accident. The auto was not going faster than between 15 and 18 miles an hour."

FERRY CAPTAIN GETS LINER

Vincent Hogan, first officer of the Santa Fe ferry San Pablo for several years, resigned his position yesterday to accept a like position on one of the trans-Pacific liners. Charles Thompson has been promoted from second officer to fill the vacancy made by Hogan's retirement.

ATHLETES MAKE BEST STUDENTS

Official compilation of student and graduate records of the local high school yesterday, revealed the interesting fact that the best athletes of the school have for several years past made the best records in the university. In addition to being the best students, they have devoted much time to student body activities.

Among the graduated students named as especially excellent in both athletic and scholarship standing were Duncan Dunning, Edward Hoffman, Elmo Zumwalt, William Norton, Fred Weyand, Ray Maddox and Tyrell Stokes.

WOULD EXTEND 8 HOUR LAW TO EFFECT MALE WORKERS

An extension of the eight-hour law now affecting women, to apply to men also, is the purpose of a bill introduced in the House by Assemblyman Lewis A. Spengler, Socialist, of Los Angeles. This extension makes the measure little short of a universal eight-hour bill.

The State Bureau of Labor Statistics is given the power to enforce the bill, and violations are punishable as follows: A fine of \$25 for the first offense; that is, working a man or woman more than eight hours in any one day, or forty-eight hours in a week; and for the second offense a fine from \$100 to \$250, or sixty days in the county jail, or a fine and sentence.

The measure will apply to every manufacturing, mercantile, mechanical establishment, laundry, hotel, public lodging house, apartment house, place of amusement, restaurant, telephone and telegraph office. The exceptions are the workers during harvesting, canning, curing or drying of fruits and perishable vegetables. Graduate nurses also are included in the exceptions, as are all men working for transportation companies.

Assemblyman Spengler says he is introducing the bill for the purpose of protecting women in the jobs they hold. There have been cases where women have been dismissed and men hired to take their places because the employers could not work the women more than eight hours, while there is no limit on the number of hours a man may be obliged to labor.

Councilman Lane Will Demand Investigation of Overcharges by Grand Jury

Making good his declaration to the council Monday night, when the matter of awaiting the city advertising was up, to the effect that he would see that an official investigation is instituted on the overcharges of the Record-Herald for printing official advertising for the city of Richmond, Councilman William Lane yesterday journeyed to Martinez, where he laid the case before District Attorney Thomas D. Johnston.

Lane declares he has positive evidence that the Record-Herald has got money out of the city and county for printing advertising that the evening sheet did not have coming. He showed Johnston one "padded" legal ad. that the Record-Herald printed in eight-point type instead of six-point type, as the law requires.

Johnston took Lane's complaint under consideration. Lane wants the Grand Jury to make an official investigation of the conduct of the Record-Herald in regard to its overcharges on city and county printing. He declares it is time that the evening sheet stops defrauding the taxpayers.

The Grand Jury will probably meet to consider the matter in the near future. At the next meeting of the Board of Supervisors the board will delve into the \$225 overcharge of the Herald on some county work. This overcharge was discovered by Superior Judge McKenzie during his incumbency as district attorney. The overcharges cover a period starting on March 12, 1914, and extended up to the latter part of December.

What Do You Think Of This Paper Combine To Rob City?

The managers of Richmond newspapers are in the city advertising office.

The Record-Herald has been consistently robbing the city. When we say robbing we mean just that. The management of the paper has been reaching down into YOUR pocket, Mr. Taxpayer, and has been helping himself to hundreds of dollars. It has robbed the county also.

An overcharge of \$225 is checked up against it. But the management of the paper has not yet paid up.

Prior to the advent of the Daily News there NEVER WAS ANY COMPETITION in the mat-

ter of city printing or advertising.

There was this year, as there has always been before, a dangerous collision between the Independent and the Record-Herald. It was arranged that one was to get the city printing and the other the advertising.

Prices, of course, were raised to the limit.

In merely putting in a bid on the city printing the Daily News saved the city hundreds of dollars, for the other papers were forced to shave down their prices at least 33 1-3 per cent.

What do you think of this fine combination to rob the city?

LOCAL REALTY MAN'S AUTO IS STOLEN: RUINED

Damaged to the amount of \$500 and stripped of everything movable, the large gray touring car of C. F. Burg, member of a well known local realty firm, which was stolen from in front of the Orpheum theater in Oakland Sunday night, was found on the Oakland water-front yesterday by the Oakland police.

The front of the car was badly battered. It is believed the auto was stolen by joy riders, who had an accident, and who thought it best to abandon the machine.

When Burg missed his car he immediately notified the police.

MARTINEZ WOULD LEASE TIDE LANDS

It is probable that the city officials of Martinez will take action shortly seeking to secure the passage of an act of the Legislature permitting the leasing of the local water-front lands for a period of 25 years to any industrial concern which may desire a site here.

It was suggested Monday night that Richmond secured such an act two years ago and can now lease its tidelands for 25 years instead of the ten year period as is prescribed by law.

CHARGES AGAINST TWO DISMISSED

Judge Lindsey yesterday dismissed the charges against James Silvas and D. Welch. D. C. McBryde will be tried next Tuesday.

The three men were all arrested following a fight in the Curia saloon. Silvas was charged with assault and Welch with disturbing the peace. McBryde was also charged with disturbing the peace.

Assistant District Attorney Pierce prosecuted the case.

Richmond Next to Top In Enrollment for U. C.

But one city in California sends a greater per cent of its high school enrolled students to the university than Richmond. Such was the statement made in the semi-annual report of the University of California to the local high school.

Berkeley ranks first with one student to every 14.4 students enrolled. Richmond second with one to every 21.8. Lowell high of San Francisco, one to 23, Oakland one to every 35 students and San Jose one to every 100 students. Considering that Berkeley is considered the best school

town on the coast, and it is populated to a large extent by people with the sole purpose of securing the benefits of the schools and university for their children.

Tyrell Stokes, a member of the class of 1914 of the local high school, took the honor of high man for his local school with the record of 1.33 out of a possible 1. Credits run from 1 to 5, with one perfect and five failure. The mark of 1.33 is one of the best made by any student in the state.

The local high school's average

for the last half year is the second highest in the eight year's history of the institution. It is 2.55 and stands well up with the best average of the state high schools. The best record of the Richmond high was in 1911, when the very high mark of 2.01 was exceeded by but one school in the state.

The principal and faculty of the Richmond high school were much elated yesterday by the excellent work done by graduates during the last six months, and with the record of Tyrell Stokes in particular.

THE "BUMS" AGAIN.

Every once in a while, just when the world is beginning to look like a fairly agreeable place to live in, one reads something like this:

"A systematic raid upon the gangs of bums which are daily passing through this city and spending more or less time, has been started by Constable C. H. Palmer. Palmer has no intention of pinching the men seeking work, but the bums who do not want work but an easy living will find their lot a hard one if they run afoul of the Martinez officers."

Mention is made of the sentencing of two "vags" to sixty days in jail, and with inimitable humor this is added: "When these glad tidings become circulated the gentry of the road will not stop to say 'good-by.'"

We don't believe that Constable Palmer has planned any raid on the unemployed men who have been attracted to Martinez by the news of the opening of the big Shell job, promising work to several hundred mechanics and laborers.

And we don't believe that Palmer has the God-like talent of unerringly picking the bum who doesn't want work out of the great crowd that desperately wants employment.

The Western Pipe and Steel Company knows just about how many of those men want work. They know it so well that they are going to try to lengthen the working day of the county and try to pay what they please.

Some day the "gangs of bums," the starving workers of the country, if conditions are not bettered, will suddenly refuse to hunt over the country for slave jobs at slave pay. There will come sudden changes then.

A SMALL CROP.

These be hard days for the organization of tin soldiers of the country.

In California General Forbes declares that something must be done and done soon or that glorious aggregation of patriots (and strike-breakers), called the California National Guard, will disband.

The General says with much heat that the young men of the state don't seem very anxious to join the guard. Attempts are to be made to make promotion more certain and thus to inveigle the young men to the wearing of the blue and gold braid. Hereafter, too, it is proposed to make some high office appointive instead of elective, as heretofore.

And "a campaign will be started for enlistments among the reputable young men of every city."

Get that reputable! No tramps in the National Guard of California! No, sir. No rough-necks with cards in their pockets and a head full of class-consciousness need apply for the honors of a shiny musket, striped trousers and gold braid.

They want nice, reputable scissor-bills, if you know what they are, and if you don't you're probably one yourself, so it won't make any difference.

But, to General Forbes, the sad part of the whole affair is that the crop of scissor-bills is growing smaller.

To those who hate the musket and the gold braid and know the cry, "Call the militia in, there's a strike," the decrease in the crop is just about the most gratifying sign of the times.

MAYBE

A Socialist Assemblyman has drafted what is practically a universal right of law and is mapping out a campaign to support it. Another Socialist Assemblyman is out with an anti-alien labor bill.

We rise to say, miscreantly, that a few more Socialists in the Legislature of the state might put a little "pop" in the proceedings of that august body.

A Belgian War Romance

By LOUISE B. CUMMINGS

One quiet evening in the summer of 1913 a pair of young lovers stood on a bridge that crossed the river Lys, in Belgium. They were there for a parting. The young man was to leave for the coast early the next morning and thence for America. Nothing could be more peaceful than the scene about them. A young moon stood in the west. If an occasional breeze stirred the leaves on the trees they were stirred lightly. As for sound, there was only a slight gurgle beneath them as the current passed the abutment of the bridge.

"Kiss," said the young man, "cheer up. It will not be long before in America I shall have saved enough money to send for you. That we may have a definite time to be reunited I promise you that one year from today, if not before, you shall receive the passage money to bring you to me."

"And I, Hans, will work and save so that if you do not succeed in gaining enough to send for me I may have enough for the journey."

When the year had passed a great change had come over Belgium. The Germans were pouring into the country from the east, the French from the south. Wilhelmina had received letters from her lover in New York that money would be sent her for her passage, but before it was dispatched the war had stopped the mails.

On the anniversary of their parting, at evening, Wilhelmina went to the bridge on which they had stood a year before. It was now a ruin, more than half of it having been destroyed. Here and there across the fields were flashes, followed by a distant roar of guns, while searchlights sent their columns of light across the sky like the tails of nearby comets.

What should she do? Her home had been that day in the line of fire and was a ruin. Before leaving it she had snatched up her savings, and these she had with her. Standing there in the identical spot where she had stood in quiet with her lover, she resolved to go to him if possible.

There was no way of announcing her coming beforehand. She had neither writing materials nor a way to send a letter. Indeed, it was doubtful if even she could break through the line of war to reach the coast. And if she arrived at a port would she find a vessel? Nevertheless she turned her face toward Holland and set off in the darkness.

Her adventures are a long story by itself. Fortune favoring, she reached Rotterdam in safety and there found that she had the means to buy a steerage ticket on an outgoing steamer to New York.

On the arrival of the vessel the emigrants were landed at Ellis Island, and Wilhelmina among others was brought before the immigration commissioners. There she was asked how she would be provided for in America, and when she said that she had no money she was told that she would be sent back to Holland.

Her modesty, the consciousness that she was coming to marry a man without a special bidding, had caused her to conceal what she expected. Besides, suppose Hans had changed! But the prospect of being sent back to a land running in blood, where even the little home in which she had been born and always lived had been leveled, overcame her reticence, and she told a love story that no pen, however inspired, could put on paper.

"Hans must be found!" Such were the instructions given to a messenger, who departed on his errand. There is a committee of Belgians in New York whose purpose it is to look after their incoming fellow countrymen. The head of the committee was found, and he in turn started a hunt for Hans.

Ever since the war had broken out Hans had been anxious about his Wilhelmina. He had not dared to send her his savings for fear they would be lost. Indeed, one of the troubles brought on by the war was the inability to send funds to Europe. He had written her, but without expectation that she would receive his letters. As to receiving letters from her, he had no faith in that either.

Hans was at work one afternoon when a fellow workman came to him and told him that the boss wished to see him in the office. Hans laid down his tools and reported as directed. He found beside the boss a man, who asked him:

"Are you Hans Wichtel?"

"I am."

"There is a girl on Ellis Island who came over from Belgium. She says you will marry her."

"Mina?"

"She says her name is Wilhelmina."

"Marry her? Of course I will marry her. Where can I find her?"

Hans wished to go at once to Ellis Island, but suddenly remembering that a man in overalls was not in wedding costume tidied himself up, then set off to join his sweetheart.

If the authorities had any doubt about Wilhelmina's story it was dispelled by the fervent embrace of the lovers. But Uncle Sam's emigrant officials take no man's promise of marriage, and there are no breaches of promise in his large family. A man went with the couple to the city hall in New York, where a license was procured. Then the pair went to the office of the Belgian committee, where the marriage ceremony was performed.

CONTRACTORS SAY THEY WILL WOULD PAY ALL FINISH HOSPITAL JOB WITH STATEWORKERS\$3 NON-UNION HELP

Not a hammer, wrench or tool of any kind was used at the new county hospital annex Tuesday, the calling off of the union carpenters, three in number, two steam fitters and one electrician on Monday afternoon tying up the work in those departments and on Tuesday the failure of a shipment of nails to arrive, prevented the lathers, who are non-union men, from

carrying on their part of the contract. Boyd, Kerr and McLean, the hospital contractors, are reported to have asserted that they will complete the job with non-union men if necessary while the unionists claim that if such is the case that the building will not be accepted. Fred Heckman, business agent of the Richmond unions, and Anton Johansen called the strike of the union men Monday.

MEXICAN MUST SERVE 60 DAYS FOR VAGRANCY

Because of the insufficiency of evidence on which to convict Frank Gimenez, a Mexican, on a charge of robbery, the charge was yesterday reduced to vagrancy on Gimenez' appearance in the court of Police Judge Lindsey. Gimenez was sentenced to serve a term of sixty days in the county jail at Martinez.

The Mexican was arrested by Officer Jennings on suspicion of being the man who broke into the room of J. G. Baumann in the Richmond Hotel and stole \$8 from Baumann's trousers' pocket.

Although the officials were certain that Gimenez is the man guilty of the theft, there was not enough evidence at hand to firmly attach the guilt on him.

When arrested Gimenez had a kit of burglar's tools in his possession.

Cheery news was conveyed to W. H. Luncford, manager of the Western Pipe and Steel Company, in a letter he received from Los Angeles yesterday, to the effect that his wife, who has been seriously ill in the southern metropolis, is on the road to recovery. open on schedule time.
There will be

NO POSTPONEMENT

or for any other reason.

Ask each of them to mail a Postcard to Some One Else, and the

OPENING DATES AND DURATION OF EXPOSITIONS:

Panama-Pacific International Exposition at San Francisco
February 20 to December 4, 1915
Panama-California Exposition at San Diego
January 1 to December 31, 1915

Here are some convincing facts concerning the great
Exposition at San Francisco:

Not one of the 42 exhibiting foreign nations has withdrawn, while
three of them have increased their participation.

Seven nations involved in war and five neutral European nations
will have their own buildings.

Exhibits from eleven foreign countries have already arrived.

Forty-three of our States and one city are making individual
exhibits.

Finally, these exhibitors are spending more money than pre-
viously expended in any two other Expositions.

ASKED TO TAKE DOWN SIGN DECLARING "DON'T BE MISLED"

City Clerk Paris has been instructed by the council to write a communication to the Ellis Landing Company, asking that concern to remove objectionable features from the big sign it has near the entrance to the city from Alameda county. The sign extolls the value of the Ellis Landing property, and has in big letters, "Don't Be Misled."

The councilmen declared that although they had no right to order the company to amend its sign, they thought the realty company should modify its reading.

RAIN PERMITTING S. O. BAND PARADE TO BE HELD TONIGHT

'ASYE SOW' AT THE RICHMOND TODAY

Tonight's show at the Richmond theater will have as its leading feature a picture which has caused a great stir wherever shown for its picturesque portrayal of those elemental human passions which strike at times like a bolt of lightning through our civilized natures and sweep everything before selfish desire. The fierce conflicts of the play are not more real than the ocean which sweeps at times through the scenes with its fright-

ful havoc. On its waves it carries away many of the secrets which will never be given up. It is safe to say that for real passion and depth of feeling "As Ye Sow" has no peer in the moving picture world. With this marvelous picture will be shown a most remarkable Keystone comedy, entitled, "The Masquerader," with Fatty Arbuckle in the startlingly funny parts. "The Sands of Fate," a two-reel drama, completes a show of great merit.

Joseph Baker, manager of the Bank Nat. yesterday deserted the ranks of the bachelors when Miss Elsie Adeline Wilcox became his bride at a simple marriage service pronounced by Judge Quinn of Oakland.

The popular couple plan to tour the southern part of the state in an automobile later.

Last night Baker invited a number of his many friends to celebrate with him the happy event at his home, 11 Sixth street.

LOWEST DEATH RATE IN STATE SHOWN IN DR. BLAKE'S REPORT

Figuring on an estimated population of 20,000 for Richmond, Dr. Blake's report for the year 1914 shows that the death rate for the year is 15.7 per 1000, which he declares high, but explains that the death rate of actual residents number only 75 for the year, or at the rate of 3.5 per 1000, which is possibly lower than any other city in the state.

Thirty-one deaths were due to accidents, which, says Dr. Blake, is all together too high for a manufacturing city.

In 1914 there were 291 births—142 males and 149 females. The total birth rate was 14.5 per 1000, which is high. In 1913, however, it was higher, 306 births being recorded.

NO SERVICES FOR HEAD OF R. AND H. BOARD TO VISIT RICHMOND

George S. Wall, president of the Richmond Industrial Commission, has received word from Congressman C. F. Curry that Congressman Sparkman, chairman of the Rivers and Harbors Commission, will visit Richmond next summer. Sparkman is chairman of the rivers and harbors committee of Congress, through which all bills for harbor appropriations must pass.

Sparkman has informed Curry that he personally favors including the approval and initial appropriation of the Richmond inner harbor project in the rivers and harbors bill of the next session.

Fresno Visitors Go to Oakland

Mr. and Mrs. W. E. Marden of Fresno, who have been guests at the home of Mrs. Elizabeth Kaiser at 256 Sixth for several days, left yesterday for a short visit with relatives in Oakland. The Mardens are well known in Richmond, having visited here on numerous occasions. Prior to coming here they had been residing at Davis, Yolo county, for several weeks. In a short time they will settle at St. Helena, Napa county.

RETURN FROM AUTO TRIP TO VALLEY TOWNS

Martin J. Kelly, local real estate man, and Charles Brown, contracting plasterer, returned yesterday from an auto trip to Atwater and Modesto, made in Kelly's machine. Kelly has a ranch at Atwater, and the trip was made primarily for the purpose of looking after numerous details in regard to his property. Kelly took two men to his ranch, who will work for him. He plans to plant a big crop of grain.

The local men experienced no little difficulty with roads. They had a hard time getting over the road at Altamont Pass, which they describe as a sea of mud. This pass is in the Coast Range mountains, between Livermore and Tracy. They found another stretch of bad road on both sides of Bethany, on the Byron-Tracy road. In getting over this highway they were delayed some little time. Most of the state highways they found in good condition.

ELKS' WORKOUTS WILL START SOON SAYS LUCE

As soon as the weather permits, Manager Luce will start the Elks out on their preliminary workouts. Luce wants the boys to get off to a flying start this season, and does not plan to have them take any chances of losing games because they are not in condition.

When the days get a little longer the boys will be required to go through their paces for a half hour or so after knocking off work. This daily practice will be kept up all season if possible.

The five workouts will be easy. Some of the boys will have to nurse their soupbones along, and watch out for "charley horses." They can gradually get going at top speed.

Just as soon as this storm stops, and the ground gets dry again, Luce will have the outfield and infield put in first class condition.

CONGER TO PLAY THIRD BASE FOR LOCAL NINE

Jack Conger will probably play third base for the Richmond club this next season, according to a statement made yesterday by Manager Bill Luce. Luce has been dickering with Conger for several days in an effort to get his name on a contract. Conger is willing to play here, providing his services bring him what he thinks he is worth.

Luce declares he expects that Conger will land a job here. Conger, who is living in Oakland at present, played several games with Richmond during the latter part of last season. He proved a fast fielder and a good hitter. He made a hit with local fans, and the town made a hit with him.

WRIT FAILS TO RELEASE MOORE

Eddie Moore, brought to jail at Martinez in December to serve 120 days for battery, to which he pleaded guilty before Police Judge William Lindsey, failed in an attempt to secure his release on habeas corpus proceedings Monday afternoon.

Moore's attorney, A. F. Bray, contended that in making out the commitment the committing magistrate failed to "command" the sheriff to imprison Moore and the document was therefore faulty. The court ruled against the prisoner and Moore has gone back to jail for the remainder of his term. Moore's girl wife was present in court when the case was heard.

SCOOP

THE CUB
REPORTER

This One Had Scoop Guessing

By "HOP"

EVERY ONE OF LOCAL PLAYERS WILL LIVE HERE SAYS MANAGER

With the probable selection of Jack Conger to play third base for the Richmond nine, the management now has its lineup complete, after weeks of dickering with the local diamond stars.

The club will open the season this way: Burns and Gordon, pitchers; Ingram, first base; Devereaux, second base; Childs, shortstop; Conger, third base; Woodbury, Christiansen and Cunningham, fielders.

Luce has his eyes open for one or two good utility men, who can play either in or out of the field. Accidents happen in the best of regulated ball clubs, and the management thinks it would be unwise to be caught in a pinch without a utility man or a pinch hitter.

Bill Luce is trying to arrange things so that every member of the club will be a resident of Richmond. Burns, Gordon, Cleek, Ingram and Woodbury reside here now. "Brick" Devereaux, Jack Conger and Harvey Christiansen will all move here from Oakland late this week or early next week.

That leaves Cunningham as the only player on the club who will not be here. Cunningham makes his home in San Francisco. He has a good job with the telephone company. Luce is hunting for a job for Cunningham that will guarantee him as much money as he is getting in San Francisco. The crack little outfielder has agreed to come here and reside when the job is found for him.

DEVEREAUX FOUND OUT IF STEFFANI WAS DEAF

"Brick" Devereaux, new captain of the Elks, is an inveterate story teller. Devereaux always has an armful of good yarns that have been gleaned from many diamonds and club houses in many states.

While here Saturday night, Devereaux told a good one on Mike Steffani, who is representing San Jose in the State League.

Steffani has been connected with baseball in San Jose about as long as Bill Luce has had anything to do with baseball in Richmond. And that has been a decade or so.

Steffani is reputed to be very deaf. Whether he is or not is a mooted question. Sometimes it pays for Steffani to be deaf. By the way, Steffani was never known to spend any of his beans, uselessly. He loves his little piece of change like a farmer loves rain.

One time, not so many years ago,

Devereaux took a ball club to San Jose to play a club that Steffani had banded together.

After the game was over the two managers met in a San Jose hotel to go over the gate receipts and divide them up as per agreement.

Devereaux had often heard the yarn about Steffani's deafness, so he thought he would give the San Jose man a tryout.

After Steffani had given Devereaux his cut, the "Brick Top" said in a very low voice, which was almost a whisper: "Say, Mike, you've given me Mike heard it. He turned around Tom heard it. He turned around and faced Devereaux and excitedly said: "Well, you big boob, if I've given you too much dough, give it back."

Now any time anyone says anything to Devereaux about Steffani's deafness, he smiles.

JAP SUSPECT GIVEN FREEDOM

After the testimony had been taken in the case of the people vs. M. Iwanaga, charged with murder in Justice E. P. Jackson's court in Concord Tuesday morning, the accused slayer of T. Takata was released from custody. It was held by the court that intent to kill on the part of the defendant was not shown. J. E. Rodgers appeared in defense of the accused. District Attorney Thomas D. Johnston appeared for the state.

HUNKYSHAW WILL PLAY WITH VICTORIA

Word has been received here that "Hunky" Shaw, the fast little infielder, who captained the Richmond club the first of last season, will be with the Victoria club in the Northwestern League this season. Shaw played with Vancouver last season, and was a prime factor in the winning of the pennant by the Canadian Club. Last season Shaw tagged the ball at over a .300 clip. He was among the leading base stealers of the league. Just why Bob Brown, Vancouver manager, let Shaw get away to Victoria is a mystery.

SPORTING GOULASH

Did you know that the senator from San Diego county answers to the name of Luce? These Luces are great men.

Jimmy Whalen, one of the best known of veteran Coast Leaguers, died in Sacramento yesterday. There are scores of Richmond fans who have seen Whalen in action.

One serious question that will come up for consideration among the State League magnates, when final organization is perfected, will be the personnel of the umpiring staff. Of course each town will have an arbiter to advance. If the double umpire system is used each town can pick a man.

Sporting scribes all over the circuit are failing for the proposed State League.

Santa Rosa and Petaluma are getting the baseball fever early this year. The clubs representing those two towns will clash in the near future.

Battling Levinsky, writes a San Francisco scribe, has fought more battles of late than any top notcher among the pugilists. Battling Levinsky is clever enough to realize that he who fights and runs away may live to fight another day. Levinsky don't fight; he runs around the ring so fast that he can't be caught.

Talking about fighting, we would like to hear old Billy Jordan say, "Let 'er go" once more before we die. If the plans of some of the legislators at Sacramento go through, California will soon see legalized ten round bouts, controlled by a state boxing commission. If they pass this bill, here's hoping they don't slip a joker in it in the form of "no-decision" bunk.

Richmond fans now know the lineup of their entire club. What do you think of it?

Lots of baseball is being played in the United States today—around the hot stoves. The Hot Stove League don't lay off from November to February.

Manager Luce's well laid plans to have the outfield of the local park rolled and put in first-class condition have so far been dissipated by the persistent visits of old J. Plavius.

By the time some of the scribes in the Coast League get done chronicling trades, sales and exchanges of players, they will have brain fog. The Coast League clubs, all of them, will present greatly changed lineups this year. Only three of the Oaks, who were on the championship club in 1912, will work for Tyler Christian this season.

Fearful lest "Pop" Dillon would not bestow credit where credit is evidently due, the baseball writer of a San Francisco sheet took pains to remind Dillon that it was through the efforts of the baseball writers that Tom Darmody retained him at his old job.

MUCH UNFINISHED BUSINESS BEFORE CITY COUNCIL AT MEETING TONIGHT

Considerable unfinished business will confront the councilmen at the adjourned meeting to be held in the City Hall tonight. One important matter that will receive consideration is the hearing of the protest of the Southern Pacific Company against its assessment for the work of paving Pullman avenue.

At Monday night's session of the council, City Engineer Chapman rendered a report in which \$6000 was

taken off of the Southern Pacific assessment. This does not bring the assessment down to the \$9000, agreeable to the Southern Pacific, by \$10,000. Attorneys for the Southern Pacific will be in attendance at the session, and will present their arguments before the assessment is finally passed.

The assessment on the property of the Pullman Company is increased \$2000 in Chapman's report. It is

expected that the Pullman Company will have a representative in attendance at the meeting.

At tonight's session City Attorney Hall is expected to have the amendment to the pool hall ordinance ready for passage by the council. The amendment makes it impossible for a pool hall to reopen under a new management after the license of the place has been revoked by the council.

POLICE PICK UP STARVING MAN: GETS FOOD

His mind evidently unbalanced by hunger and exposure, Austin Harris, who claims to be the brother of a wealthy rancher of Orange county, is being held at the city jail until such time as the authorities think he has received proper nourishment. Harris was arrested early yesterday morning, when found wandering around the streets in an aimless fashion. He is 29.

Harris was one of the dirtiest and most unkempt men to ever be confined in the local jail. Prior to his arrest he had not had a shave for months. His clothes hung in shreds on his body. He was given a shave and bath yesterday. Chief of Police Walker provided him with a new hat and pair of shoes from his own wardrobe.

The only period of his life about which Harris can tell a clear story is when he was a shepherd in Nevada.

He will be held at the jail for several days. When arrested Harris was without funds and nearly famished. The police don't quite know what to do with him.

CONTRA COSTA EXHIBIT TO BE INSTALLED AT EXPO. NEXT MONDAY

A beautiful facade made in Contra Costa county of California redwood and grained, painted and polished to give the effect of ivory and gold is to house this county's exhibit in the California building at the P. F. I. E. The facade is practically completed at the plant of the Redwood Manufacturers in Pittsburg and the work of installing the same at the fair will begin next Monday, according to the announcement of Commissioner John Birmingham Jr., who is in consultation with his assistant, C. A. Sweeney, of Antioch in Martinez yesterday.

D. H. MacQuiddy, the former Concord contractor, now of Pittsburg, will be in charge of the installation of the facade and Birmingham stated Tuesday that the carpenter work will be finished and practically all of the exhibit installed by the first of February, many days before the Exposition opens on February 29.

JUSTICES MUST GIVE FEES TO COUNTY

District Attorney Thos. D. Johnston has advised the sixteen justices of the county that hereafter they must turn into the county treasury all fees and fines, whether from civil or criminal actions. This is in accordance with the amendment of section 15, Article 6 of the Constitution of California, which reads:

"No judicial officer, except court commissioners, shall receive to his own use any fees or perquisites of office; provided, that justices of the peace no withholding office shall receive to their own use such fees as are now allowed during the terms for which they have been elected."

The amendment took effect January 4. About \$2000 per year, which has gone into the pockets of the justices heretofore, will be diverted to the county.
